

CHINA Shanghai

The Shanghai Hilton Hotel
.....

Faced with the high solar heat gain through the glass surfaces during the summer months, the Hilton Hotel management engaged V-KOOL Shanghai to retrofit **V-KOOL® 70** on the entire skylight covering the Coffee House. V-KOOL 70 was selected as the management did not want to compromise the natural light entering the cafe with heat rejection. Working only through the midnight hours to minimise disruption to hotel operations, the 7,000 sq. ft. project took slightly under a month to complete due to the difficulty and access constraints of the work site.

The Hilton Shanghai stands an impressive 43 storeys above Shanghai's commercial district. Located midway between the city's two main shopping streets, it is 20 minutes away from the Hongqiao International Airport and 50 minutes from the new Pudong International Airport. The Shanghai Hilton is a popular choice amongst business and trade visitors with the subway station and exhibition center all within walking distance, and a mere 15 minute ride to some of Shanghai's best known sites - the Bund, Shanghai Museum and the Shanghai Grand Theatre.

Boasting 772 guestrooms and suites with the highest standards in luxury and service, Hilton Shanghai offers prime opportunities for relaxing in the most cosmopolitan and famed "Paris Of The East". As expected of a hotel of it's calibre in China's burgeoning financial center, the hotel features eight restaurants and bars offering oriental and continental cuisine, a 3,000 square meter health club and spa, 24-hour business center, extensive banquet and conference facilities, limousine fleet and high-tech facilities for the travelling executives such as broadband internet access and dual-port telephone system.
